To Whom It May Concern:

We were informed by our local radio station that the FCC is considering rules to mandate that all radio stations be required to give all opinions re the news.

Presently there is freedom of speech on private radio stations, ie, Christian Stations, to give their views/opinions from a Christian point of view.

We see the rules that are being considered as a removal of the freedom of speech guaranteed by the Constitution. Consider the grave consequences of this restriction of freedom. Our soldiers are today fighting for this freedom of speech. Yes, they fight even for those who disagree with the war.

Sincerely,

Charles and Virginia Peterson

Please don't silence Christian Radio stations. I am a 5th Grader at Fabra Elementary and just finished studying The U.S. constitution. In amendment 1 it says we have the freedom of religion and speech. I listen to K-Love (91.3) and really like it. How can you not see what your doing to our country? After all, we are one nation under God. Do you remember how the British took away our freedoms. I don't want that to happen again. Americans survived hard, cold winters, died, and never gave up. Was the fight for nothing? Does it not matter to you how many people gave their lives for freedom? I am strongly against this regulation. If it is passed I will lose faith in all our leaders that could have been great, that I may have looked up to. If people don't want to listen to Christian Radio stations, they can simply turn off the radio, find a different station, or even better start their own station of whatever religion. As for me, keep Christian Radio and I am sure many others agree with me. The least you can do is consider what I've said.

Sincerely,

Amber Lehmann
